cost and source of funding for the monument. The latest to join the fray is Daniel Yaw Domelevo, the former Auditor-General who has expressed misgivings about the use of state funds on the construction of the National Cathedral.

According to him, since the concept of the project stems from Nana Addo Dankwa Akufo-Addo's promise to God for making him president, the funding should be from his coffers not through state funds.

EDITORIAL

S OFF OUR FORESTS!

continued degradation of the country's lands, forests and ecosystem is very worrying. In spite of warning from environmentalists about the dangers with continued deterioration of the natural reserve due to exploitation of resources. A few months ago, a group of professors issued a warning to government about the dangers of allowing the exploitation of the forests of its bauxite. This warning was as a result of the fact that mining activities generate their source of income from the Atiwa Forest reserve. This warning has not been heeded and there are indications that some engineers will exploit the forest. There are also some forests which are facing various threats. The Bank recently cautioned Ghana against the continuous wanton degradation of forest and other natural resources, stating that the country risked not achieving Sustainable Development Goal (SDG) 15, which is protecting the ecosystem to promote sustainable development. The hope of this paper is that somebody in the government would see wisdom in taking steps to reverse the land degradation and reverse the trend of embarking on reforestation to win back degraded lands and forests. It is a clearly the need, in the face of the current situation, for the government to hand over the Atiwa forest and other natural

'Inexperienced' Bawumia Cannot Lead Us, Says NPP Executive Member

Vice President Dr. Mahamudu Bawumia as the presidential candidate for 2024.

He believes the party requires a capable leader who can lead the party to victory over the National Democratic Congress (NDC).

He stated that Dr. Bawumia is not the candidate to whom the party should entrust power because he lacks political experience.

According to him, Dr. Bawumia has no campaign message, and his lack of political experience will make it easier for the NDC to win the presidential election.

He also warned the party would lose miserably in the Ashanti Region which is their 'world bank' should they present Dr. Bawumia as a candidate.

"The battle ahead of us will not be easy, and Dr. Bawumia will not be able to lead the party. He has no political background. How will he (Bawumia) deal with JM, who has previously served as president? There is no campaign message from Bawumia. He has no idea how to campaign. As a party, we should proceed with caution. We do not want to lose the elections in 2024.

Dr. Bawumia is constantly being mentioned. He had his own agenda. He promised to appoint several people as presidential candidates. If we choose Dr. Bawumia as our candidate, the NPP will lose badly in the Ashanti

Vice President Dr Mahamudu Bawumia

Meanwhile, he has called for unity and strength for the party as they go to their primaries to elect the party and presidential candidates.

personal pledge made to God. Already, the National Cathedral has been fraught in endless controversies with the latest allegation being wrongful payment made to Reverend Kusi Boateng, a member of the cathedral's Board of Trustees. Samuel Okudzeto Ablakwa, the Member of Parliament for North Tongu is on a crusade to expose what he views as wrongful payment of state funds to certain individuals and organizations concerned with the construction of the Cathedral. After an initial allegation that a whopping GH¢2.6 million was dished out to a company named JNS Talent Centre Limited, Ablakwa embarked on a mission to discover the persons behind the company. Ablakwa's investigations into the alleged payment led to the discovery of one Kwabena Adu Gyamfi as a director of JNS Talent Centre. Having confirmed the identities of

two out of three directors of the centre, Ablakwa went on an expedition to discover the identity of the third director, Kwabena Adu Gyamfi. According to his findings, citing a number of statutory documents, Kwabena Adu Gyamfi is the same as Reverend Kusi Boateng, who has allegedly been operating under the pseudonym Kwabena Adu Gyamfi. In an explosive set of allegations which he describes as the Tsar Bomba of all scandals, Ablakwa claimed that Reverend Kusi Boateng holds multiple passports and identification cards with some bearing the name Kwabena Adu Gyamfi. "You will recall that in my earlier exposé of the scandalous GHS2.6million cash transfer from the National Cathedral Secretariat to JNS Talent Centre Limited, I pointed out that incorporation documents reveal that the three directors of JNS Talent Centre

Limited are Johannes Eshun, Sheila Eshun and Kwabena Adu Gyamfi. "I also later revealed that Rev. Johannes Eshun is a branch pastor of National Cathedral Executive Council Member/Director, Rev. Victor Kusi-Boateng's Power Chapel Worldwide. "Hitherto, the third director—Mr. Kwabena Adu Gyamfi has remained a mystery figure. "I am now able to reveal the true identity of this mystery director of JNS, Kwabena Adu Gyamfi. "Definitely, the code has finally been cracked and it shocks to the marrow! "Unimpeachable and incontrovertible evidence confirms that Mr. Kwabena Adu Gyamfi is the famous Rev. Victor Kusi Boateng who still serves on the National Cathedral Board as an Executive Council Member/Director. "For the avoidance of doubt, there is no distinct Kwabena Adu Gyamfi. Kwabena Adu Gyamfi is a criminal creation of Rev. Victor Kusi-

For Oil Policy: John Jinapor Insists Bought At A Premium Not A Discount

John Jinapor is former Deputy Energy Minister

Member of the National Council on Energy Policy and Energy Research, Jinapor has been vocal about the need for oil to be bought at a premium.

According to him, buying at a premium will mean that the fuel will not be as cheap as it has been perpetuated by the government. Speaking to Citi News, he said "In fact, the information I have is that the oil they

bought is at a premium and not at a discount. So, this narrative that they are going to get cheap oil somewhere is not true. Let me state that there is nothing like cheap oil when it comes to the international oil market. On the contrary, this deal is leading to a premium in terms of pricing."

John Jinapor however explained that the fuel being bought by the government is not enough for the Ghanaian market and it may not be a cheap source to be able to deal with the increasing fuel prices. "The notion that fuel prices will go down is not true. The other side is that the diesel covers only 25% of our requirement and you see that

is not even enough to change the price," he said. John Jinapor also called on the government to halt the programme for broader consultations to be held. Meanwhile, the Head of financial markets at the Bank of Ghana, Stephen Opata, has confirmed that the first consignment from the gold for oil policy is already being sold to the bulk oil distributing companies. He noted that even though the prices are lower than the ex-pump prices, the impact will not be felt since it is just about 20% of the country's market needs. "The product was cleared from the ports today and I know that BOST has started selling. This is just 20% of our market needs

from the number of the prices are bought at the ex-pump. "Because this is our needs, it will have much impact as we were to be doing our diesel needs by myjoyonline.

The first consignment from the gold for oil arrived in Ghana on January 16, 2022. The 41,000 metric tons from the United States was however delivered to Oil Storage and Refining (BOST). The move is part of the government's effort to reduce fuel prices and save enough dollars from the international

ECG Boss Salutes BECE Candidates Of Municipality Over Successful Examination

Managing Director of the ECG Company Kwame Agyeman-Budu has said the results will be a basic education for the youth in the Ejisu Municipality.

helped each of these students on their basic education journey," Mr. Agyeman-Budu stated. The former ECG boss, who is very passionate about education development of the youth in the Ejisu Municipality indicated his commitment to continue to help to make education in the municipality "grow more efficiently and effectively for our future leaders." Before the 2022 BECE, Mr. Kwame Agyeman-Budu presented mathematical sets to pupils who participated in the Basic Education Certificate Examination within the

Kwame Agyeman-Budu

The 3,300 mathematical sets were received on behalf of 3,200 pupils by the Municipal Director of Education, and all heads of the 52 basic schools within the municipality.

2022 BECE: WAEC Investigations Results Of Entire Results Of 73 School, 2 Private Candidates

The West Africa Examinations Council (WAEC) has cancelled the subject results of 416 School candidates who took part in the 2022 Basic Education Certificate Examination (BECE). This follows the completion of WAEC's investigations carried out into some cases of examination malpractice detected during the conduct of the examinations. The results were cancelled for the offence of either bringing foreign materials into the examination hall or colluding with other candidates. Three private candidates also had their subject results cancelled. In a statement announcing the release of provisional results for both school and private candidates who sat the examination in 2022, WAEC said it approved: "Withholding of subject results for 38 school candidates pending conclusion of investigations into various cases of alleged examination malpractice." Also, WAEC has cancelled the "Entire Results of 73 school candidates and 2 private candidates for the offence of bringing mobile phones into the examination hall"

their "Entire Results pending conclusion of investigations into alleged examination malpractice. While the "scrips" from 40 schools are undergoing investigations. According to WAEC, the results of candidates cancelled or released pending the outcome of the investigations. In all, a total of 5,300 candidates made up of 276,276,289 females school examination candidates with 427 with hearing impairment. 54 candidates were accommodated in the examination hall. Out of the total candidates who participated in the examination, 4,300 were absent. The BECE for private candidates recorded a total of 1,144 candidates of 641 males and 503 females. Of the total number of candidates who entered for the examination, 84 candidates were

JNS Talent Centre, owned by a certain Kwabena Adu Gyamfi, is only an alias of Rev. Kusi Boateng.

In this latest document, the [National Democratic Congress](#) (NDC) MP said that the details show that indeed, the amount of GH¢3.5million that was received by JNS Talent was not a loan but money for the supply of some items.

This, he added, is contrary to earlier claims made to the effect that the amount given to the company was a loan from the National Cathedral Secretariat.

“Evidence secured of how the ubiquitous JNS Talent Centre Limited, secretly & dubiously owned by Kwabena Adu Gyamfi AKA Rev. Victor Kusi

Boateng, received a staggering GHS3.5million of Ghana's COVID-19 cash to supply paper towels. This further complicates his cathedral loan claims,” the MP wrote on Twitter.

It will be recalled that the Executive Director of the Cathedral project, Dr. Paul Opoku Mensah, earlier explained that an amount of GH¢2.6 million was paid to JNS Talent Centre Limited because it was an interest-free loan the company helped it secure to meet some contractual obligations in 2021.

“We had signed a contract; we were supposed to pay them (contractors) mobilization and that was part of the seed money from

19 EXPENDITURE FOR THE PERIOD MARCH 2020 TO JUNE 2020

7	limited 1,000,000.00 10/2/21 18-070 GOGCOVID Rent payment for Temporary medical Stores PSB Realty Company limited 1,827,278.90 Total 2,827,278.90	102. We noted that ten suppliers and service providers who were contracted to supply medical and personal protective equipment were paid advances of US\$27,955,702.07 and GH¢9,911,601.75 beyond the required legal threshold. Details are shown below:103. The Director of Procurement explained that the payments were made because the suppliers demanded such advances as a condition before they would release the medical items or provide the essential services under the COVID-19 circumstances.	27, paragraph 91 stated that advance payment may be increased to 40 percent while secured with an advance payment guarantee. Frontline workers life insurance package – GH¢10,309,920 107. General principles of insurance require that when an employer or organisation purchases Group Life Insurance Policy to cover employees in case of death, accident, temporary/permanent disability and critical illness, the employer or organisation may keep the master agreement, but the identified employees should receive Certificate of Coverage which could be used by the beneficiary or next of kin to apply for the claims when the need arises. 108. Additionally, the National Insurance Commission Guidelines on Life Insurance Products require that as a standard, all Life Insurance Policy documents must have the name of the person(s) insured by the policy and the name of the policy owner, the amount of insurance coverage (face amount and sum assured) provided by the policy and the effective date of the policy. 109. We observed that the Ministry paid GH¢10,309,919.94 as premium for Special Life Insurance Cover for 10,000 Health Workers and Allied Health Professionals working on the COVID-19 pandemic without any Life Insurance Policy document detailing the beneficiaries, their location, next of kin in case of death, nature of the benefit and the term of the coverage. Details are as below: DATE PV No INSURERS PREMIUM PAID (GH¢) PERCENTAGE CO- INSURED 9/4/2020 001 Enterprise Life Assurance Co Ltd 10,309,919.94 30 SIC Life Co Ltd 20 Glico Life Insurance Co Ltd 15	Ghana Union Assurance Co Ltd 5 Mi Life Assurance Co Ltd 5 GN Life Assurance Co Ltd 5 Allianz Life Ghana Ltd 5 Ghana Life Insurance Co Ltd 2.5 110. The Chief Director explained that in response to the pandemic was recommended by the Ministry and eventually the Health Industry in Ghana. Hence, they did not allow health workers to leave their homes. They, therefore, did not pay premium for a benefit of 10,000 health workers. 111. Health Workers and Health Professionals the COVID-19 pandemic who signed any insurance document will find it difficult to access benefits under this blanket payment arrangement in event of default of insurance company payment of benefit, the employees do not have the legal capacity to seek legal redress in Court. 112. We recommended the Chief Director should ensure the Ghana Health Service to educate and assist health workers and professionals to complete the insurance documents to enable them to access benefits under the policy when the need arises. 113. Management should ensure that the insurance package – devoid of the non-expected in a Life Insurance some parameters are clearly spelled out possible for example to determine, before the would-be victim of the pandemic. 19 EXPENDITURE FOR THE PERIOD MARCH 2020 TO JUNE 2022

Page 7

18 Health facilities and payments at US\$4,049,460.12 out of which US\$607,419.02 was paid vide PV No. IPF 22-007 of 2 September 2022 to be delivered by 15 January 2022. However, the ambulances remained undelivered as of 28 November 2022. 122. The Chief Director explained that the supplier applied for extension to meet some technical specifications. 123. Under the current economic difficulties, the supplier could apply for price variation to unduly increase the cost of the contract which could have been avoided if the ambulances had been supplied as scheduled. 124. Management has indicated that upon technical inspection by the World Bank, additional specifications have been recommended and the contract has therefore been extended to March 2023. 125. We recommended that the Chief Director should ensure that the ambulances are delivered no further than the extended date of March 2023. **Medical items not accounted for – US\$247,405** 126. Section 96 of the Public Financial Management Act, 2016 (Act 921), indicates that a person, connected with the procurement or control of government stores, who is responsible for any deficiency in or for the loss, damage or destruction of any public funds, stamp, security, stores or any other government property, commits an offence and is liable on summary conviction to a term of imprisonment or a fine. 127. Contrary to the above provision, we observed that medical equipment valued at US\$247,404.79, procured and received at the Temporary Central Medical Stores and subsequently issued to some specific health facilities the health facilities at the time of the audit (November 2022). Details are attached as Appendix 'B'. 128. The Director at the Central Medical Stores explained that though the items were issued to specific facilities, officers of Regional Medical Stores and nearby facilities were made to sign for the items with the responsibility of delivering the items to the specified facilities on behalf of the Central Medical Stores. The Director admitted that sometimes the officers do not deliver the items on time, hence their remaining unaccounted for. 129. We recommended that the Chief Director should ensure the Director at the Central Medical Stores accounts for the items, failing which the value of the items should be refunded by the Chief Director into the Auditor General's Recoveries account. **Unutilised medical equipment/accessories – US\$367,700** 130. Section 52 of the Public Financial Management Act, 2016 (Act 921) states that, 'a Principal Spending Officer of a covered entity shall be responsible for the assets of the institution under the care of the Principal Spending Officer and shall ensure that proper control systems exist for the custody and management of the assets. A control system specified in subsection (1) shall be capable of ensuring that preventive mechanisms are in place to eliminate theft, loss, wastage and misuse; and processes, whether manual or electronic, and procedures are in place for the effective, efficient, economical and transparent use of the assets.' 131. We observed during our field visit to eight Health facilities combat of COVID-19 disease have been packed and not put to use. Details attached as Appendix 'C' 132. The Heads of the Facilities gave various reasons including the need for training before using the equipment, instruction to wait for the supplier to install the equipment, the need to have space to set up the equipment, among others. 133. If the equipment is not installed early for use, benefits from the warranty period could be lost, they could become malfunctional and additional funds would be needed to service them before they are used. 134. We recommended that the Chief Director should ensure the equipment are installed and put to use without further delay. **Faulty/Damaged Medical Equipment – US\$451,979** 135. Contrary to Section 52 of the Public Financial Management Act, 2016 (Act 921), we noted during our visit to nine Health facilities in the Greater Accra, Oti, Eastern and Western North regions that medical equipment procured at a cost of US\$451,979.38 to assist in the fight against the COVID-19 had broken down. The details are provided in the table below:
