

Ref.39291

4th December 2023

The General Secretary  
New patriotic party  
Accra.

Dear Sir,

**RESIGNATION FROM THE PARTY AS A MEMBER**

With reference to the above captioned headline, I want to officially tender in my resignation effective immediately from the New Patriotic Party. Below are some reasons for my Decision.

In 2018, I decided to join the constituency election executive race to represent as a women organizer for the party in Sege constituency. After a successful filing, vetting and balloting, I was eliminated two days to the election and never given any reason till date. I later found out the decision was taken to eliminate me on the instructions of the Regional Chairman Divine Otoo Argohom.

In 2019 also, I decided to run for the parliamentary race. There were all sort of petitions and machinations to get me out of the race but God being so good and with help from Mr. Odarlai Parker the regional secretary, I sailed through and won.

In 2020 election, Whiles some constituency Executives wholeheartedly supported me throughout the election process, The Regional Chairman Mr. Divine Otoo Agorhom and other Constituency executives decided to sabotage my campaign throughout on the basis that their preferred candidate didn't win the elections. I stated all these reason in my initial letter to the Presidency after the election upon request but did not get any response.

During the 2020 campaign, Former constituency executives and council of elders were suspended and dissolved by the then constituency executives even though I resisted during the 2020 election. Letters were copied me till date which I never got any of such copied letters. This single action destroyed lots of things but I still endured.

In the run up to the 2023 Parliamentary race, I received an indefinite suspension letter from the constituency Executives stating various reasons a week to the initial picking of nominations forms for the parliamentary race. I sensed it was another scheme to get me out but I still fought ahead.

Prior to the Election, the constituency Chairman Mr. Augustus Adjaottor popularly known as Chairman Spain and his executives went round telling polling station executives he cannot work with me when I win the election. On the day of election as well, super powers were sent to eliminate me from the race again and influenced the election with money and threats.

It is of Good intentions I wanted to serve my beloved party and my constituency but I have had lots of setbacks which I would no longer want to endure. I have not been treated fairly ever since I decided to contest in Sege constituency on the Party's ticket and as a matter of principle, I humbly request you to accept my resignation as a member of the party.

It was a great pleasure serving as a parliamentary candidate in the run up to the 2020 election in Sege and would love to thank everyone for giving me such honors.

I wish the party Good luck in all its future endeavors.

Yours Sincerely

Eunice Lasi.

Former parliamentary candidate  
Sege constituency
