GOLDBOD FX GENERATION AND SALES UPDATE - SEPTEMBER 2026

In September 2026, the Ghana Gold Board (GoldBod) in accordance with its mandate under section 2(b) of ACT 1140, generated from its ASM gold trade operations, foreign exchange totaling US\$1.871 billion against the announced monthly target of US\$1.4 billion.

Of the total amount, US\$701.3 million was sold to authorized commercial banks against the set target of US\$700 million to support FX market stability, while an amount of US\$1.170 billion was provided to the Bank of Ghana against the set target of US\$700 million to support reserve accumulation.

In October 2026, GoldBod projects to generate US\$1.5 billion in foreign exchange. Of this amount, US\$1 billion will be made available to commercial banks to support FX market stability, while up to US\$500 million will be provided to the Bank of Ghana to support the building of reserves in line with the GANRAP.

This will be done in accordance with the newly developed Spot FX Sales/Intermediation Framework of the GoldBod to strengthen transparency, fairness and regulatory compliance.

GoldBod remains committed to its statutory mandate to generate foreign exchange for Ghana and will continue to work closely with all stakeholders.
